4. Starting 7 June, the Agency will have two Commo employees attending the final running of NSA's Signal Analysis Course. This course will be replaced by two courses: Basic SIGINT Technology and COMINT Signal Technology.

AIR received a letter from NSA announcing the next National Communications Security Course (13 September). Based on our past use of this course, we were invited to send one employee. Senior Training Officers are being asked for requirements. If they exceed one slot, we will try to obtain extra spaces.

The Office of Computer Services has transferred Format "A" (alpha by Agency) of the Agency Training Record to microfilm -- 3,600 pages on one reel of film. It is very compact, legible, and readily accessible; OCS indexed the reel for us. Format "C" (alpha by course) is also on microfilm, but OCS is retaining it to use for demonstrations.
